**Re: INTERCEPT Blood System™  
Plasma Processing Set (Product Codes INT310X)  
Extension of shelf life from 12 to 24 months**

Dear Valued Customer,

CERUS is committed to providing you with quality products and services. This letter is to inform you of a change that is being implemented in our INTERCEPT Blood System product line. We are pleased to advise you of an improvement to the INTERCEPT Plasma processing sets labeling which has been made in response to your feedback.

**Details of Improvement**

The shelf life for the INTERCEPT Blood System Plasma Processing Set (Product Codes INT310X) has been increased from 12 to 24 months. This significant change has been approved by our Notified Body, TÜV SÜD Product Service, based on amotosalen HCL solution stability studies as well as INTERCEPT Blood System Plasma Processing Sets aging studies that have satisfactorily reached the 24 month aging mark.

As a result, all INTERCEPT Processing Set for Plasma manufactured from this date will reflect this improvement and will be marked with a 24 month shelf life. In addition, existing Plasma Processing Sets lots are also extended retroactively to the full shelf-life of the product. This means that the shelf life of your INTERCEPT Plasma processing sets inventory has been extended and can be used beyond current expiration dates. The new expiration dates are defined for each lot number in the table below.

Product number	Lot number	Extended Expiration Date
INT3102B	07B06L31	2009-02
	07D23L31	2009-05
	07F26L31	2009-08
	07G23L31	2009-09
	07H13L31	2009-09
	07I18L31	2009-10
	07J04L31	2009-10
INT3103B	07C02L31	2009-04
	07E25L31	2009-06
	07I13L31	2009-10
	07L10L31	2010-01
INT3104B	07C14L31	2009-04
	07C21L31	2009-04
	07E22L31	2009-06
	07F04L31	2009-08
	07L05L31	2009-12

Existing inventory of CERUS disposable sets labeled with the present 12 month expiration will continue to be distributed until such inventory is depleted. Please refer to this letter for lot numbers affected by this change.

At your request we can supply you with a new certificate of conformity with the extended expiry date for INTERCEPT Processing Set for Plasma in your inventory.

We trust you will find this improvement useful and are available for any questions or inquiries.
